Project Manager

Requirement analysis and gathering of developing software using Figma

Drawing up an implementation plan taking into account the complexity and urgency

Monitoring the implementation of the plan using Miro

Periodic reporting on the progress of work to stakeholders by Google docs

A full study of the current state of the project, formulation of goals and creation of the necessary overview to find solutions within the project

Analysis of possible benefits/risks of ideas, proposals from stakeholders to payment system

Regression testing/ Grey-box testing

Creating bug report and bug life cycle monitoring in Trello

Software maintenance

Achievements:

Thanks to the development of the payment system software from scratch to a stable version, the Bank was able to completely switch to new terminal models (where we were the vendor), the quality of equipment and performance of which surpass the terminal models of other vendors. It also benefited the client from the point of view of managing their own products using their own IT infrastructure, and after the release of the software in 5-6 months, the software developed by us was installed on more than 50 thousand POS-terminals throughout the country.

Project I've worked on:

Halyk Bank Smart POS

January 2021 —
January 2022

Kazakhstan Deposit Insurance Fund

1 year 1 month

Almaty, www.kdif.kz

Government Organizations

- Governmental Organizations

Projects manager assistant

Assistance in writing technical specification and test cases

Data gathering for business analysis

Business process testing of developed system/application

Creating bug report and bug life cycle monitoring in Jira

Regulatory compliance in IT and IT-security

Achievements:

Thanks to the released web service and mobile application, work has begun on the payment of guaranteed compensation to depositors of 10 liquidated banks in Kazakhstan. This product simplified the entire customer application process and shortened the compensation time.

Projects I have worked on:

Electronic portal of guaranteed compensation payments
